We began our YouTube channel in **2020** with an emphasis on theme parks and roller coasters, and have since grown into travel, haunts and unique experience vlogs. Our travel vlogs have proven popular with international audiences in the United Kingdom and the Netherlands, but our most popular videos and the majority of our current brand relationships exist within the haunt industry. We have traveled far and wide to experience haunts and haunted attractions all over the United States, and our audience for haunt and haunt experience vlogs continues to grow exponentially year over year.
